

We know a thing or two about **Gelato**, and we know how to party. So take it from us: a Gelato party is one of the more epic ways to make a gathering memorable.

Our artisanal gelato is special because we make our own Gelato base daily with fresh ingredients. Our secret lies in the meticulous search of the components used in our recipes - some are imported from our homeland of Italy, and others from various regions of the world.

We do it all: we show up, set up our cute little cart and clean up so all you have to do is enjoy our Gelato. It's like bringing our shop right into house/office/school!
